illustro's i.c.y.a. Network Security

- *Complete, turnkey solution — delivered completely ready to use*
- *Works with any TCP/IP Stack,*
- *Works for HTTP (Web), FTP, Telnet and other applications*
- *Supports SSL 3.0 and TLS 1.0*
- *Supports encryption algorithms including Triple DES, DES, both AES 128-bit and 256-bit*
- *RSA certified public/private encryption*
- *Supports most 3rd Party SSL Certificates (Verisign, etc.) Supports self-signed certificates*
- *Audit log Redundant hardware for maximum reliability*
- *Dual embedded 10/100/Gigabit NICs – Token-Ring capable*
- *Live demo available at Illustro.com/icya*

z/XML HOST™

- Transform *any* 3270 application data into industry standard eXtensible Markup Language (XML) document
- XML documents allow for data to be shared across data, system and processing architectures and environments
- Implement Web Services capabilites; allow your mainframe to participate in a Service Oriented Architecture (SOA)
- No changes required to any existing application
- Open your mainframe data and applications to Java, .Net, even Microsoft Office

TCP/IP Critical for VSE Users

- ☑ For most customers it is THE network interface
- ☑ Software and concepts are complicated
- ☑ VSE systems support wears many hats and cannot specialize
- ☑ Can't afford to be down
- ☑ Have tried almost anything to fix problems…
