Implementation

- CICS TS Partitions
  - 50MB F2 for CICS TS with ICCF
  - Additional CICS TS partitions

Copyright © 2004 illustro Systems International, LLC   WAVV2004-13

Implementation…

- Virtual Storage Considerations
  - 24-bit and 31-bit dynamic storage areas required
    - EDSALIM - limits 31-bit DSAs
      - Recommend supplied value of 25MB or greater
    - DSALIM - limits 24-bit DSAs
      - Use value based on CICS/VSE 2.3 startup message: "SUBPOOL SIZE BEFORE LOADING RESIDENT PROGRAMS"
    - Other SIT parameters allocate individual DSAs
      - Recommend default 0 to let CICS do dynamic allocations

Copyright © 2004 illustro Systems International, LLC   WAVV2004-14

Implementation…

- Virtual Storage Considerations
  - Task storage allocated based on MXT value
    - Limits total number of user tasks
    - Storage pre-allocated in DSAs for MXT and 10 system tasks
    - MXT=999 is not good (uses 3.6MB)
    - Specify MXT value based on CICS/VSE 2.3 shutdown statistics:
      "Peak number of tasks reached"
      "Number of times at max task"

Copyright © 2004 illustro Systems International, LLC   WAVV2004-15

Implementation…
